

No Rest for Success

Success is a journey not a destination a year from now you may wish you had started today.

Every beginner is a winner.

Success is not escaping problems but facing them creatively.

There is no success without sacrifice.

Great success always calls for great sacrifice.

Even failure can become an important ingredient to success.

Failure just means that you have not yet succeeded.

I'd rather change my mind and succeed than have my own way and fail.

Success without conflict is unrealistic.

Any person can be successful on smooth seas,

but it is the victory over the storm that gains true honor.

Success doesn't come through the way you think it comes;

it comes through the way you think.

Never settle for less than success.

Success is doing something good.

When you can, where you can, while you can.

It's better to attempt to do something great and fail,

than attempt to do nothing and succeed.

Success is not necessarily reaching your goal- but reaching the maximum possibilities in light of the opportunities that come your way.

To keep your values on target remember to live so that when you “arrive”, you'll have pride behind you and hope ahead of you.

The success is truly the path to heaven.

Success is never ending, because success is like the process of seed planting. Every creative contribution like a seed planted may bear fruit.

Success finally is not what you have it is not what you do; it is who you are, and what you want to become of yourself.
